Position Title Assistant/Associate Professor

Number of Positions 1

Internal/External Posting: External

Area of Specialization Reproductive Physiology

Department Animal & Dairy Science

Department Profile

Position Function

The Department of Animal and Dairy Sciences at Mississippi State University invites applications for a 9-month (summer salary provided for 2 years) or a 12-month faculty position (negotiable) as an Assistant/Associate Professor (tenure track). The position is 35% teaching and 65% research appointment in livestock reproduction.

Essential Duties and Responsibilities

Training in use of modern tools of molecular biology to solve problems facing the livestock industry is required. Expertise with artificial insemination, embryo transfer, ultrasonography and reproductive management with post-doctoral experience preferred. The applicant must have effective communication and interpersonal skills and the ability to work cooperatively with other faculty, students and industry personnel. Candidate must have the potential to establish an independent, externally funded research program that complements existing programs in the Department of Animal and Dairy Sciences. Candidates for the associate professor level are expected to have demonstrated scholarship including externally funded research programs and effective teaching. The successful candidate will also be expected to contribute to a strong undergraduate and graduate teaching program and develop a collaborative research program with faculty in other areas including the College of Veterinary Medicine.

Minimum Qualifications

Qualifications include a Ph. D. in reproductive physiology, animal sciences or related field from an accredited institute. Candidates who are all but dissertation with a completion date of December 1, 2011 will be considered. Level of appointment will be commensurate with qualifications and experience.

Will ABD's (all but dissertation) be considered?
